SINCE 1982 THE LEADING COMPANY IN THE FIELD

MILESTONES OF MARANGONI MECCANICA IN OTR RETREADING MACHINERY

- 1959** Marangoni Meccanica S.p.A. is founded in Rovereto (Italy),
- 1976** First retreaded OTR tire, size 18.00 R 33
- 1979** Marangoni Meccanica supplies several OTR buffers with H frame and bead plates and tens of hydraulic presses for radial OTR tires till 18.00 R 33 size with container segmented moulds.
- 1981** TRM s.r.l. is founded in Rovereto (Italy)
- 1982** Marangoni Meccanica sells the first "Alpha Mammuth", able to retread tires up to the size 40.00 R 57. In the following years dozens of these machinery are sold to all the top OTR retreaders in the world.
- 1994** Introduction of new technologies, such as the "drive by wire" and the 3 axis movement of the calender group and of the working tools, with a strong improvement in the quality and precision of the retreading process.
- 2005** TRM develops a new line of OTR retreading machinery using a "H frame" and bead plates.
- 2006** Marangoni acquires 51% of the shares of TRM
- 2011** TRM enlarges its range of equipment for vulcanization of OTR tires, introducing new curing presses for tire size 40.00 R 57.
- 2012** Marangoni completes the acquisition of TRM, where it concentrates all the activities related to the retreading machinery.

Today TRM, a division of Marangoni Meccanica for retreading machinery, is able to offer the widest range of machinery and turn-key plants for OTR tire retreading starting from tire size 14.00 R 24 up to 59/80 R 63, in the version with expandable chucks or with bead plates.

RANGE OF PRODUCTS

MACHINES WITH BEAD PLATES

available in the versions 35" - 51" - 63"

- Eagle OTR - Peeler/Buffer/Groover
- Eagle OTR - Peeler/Buffer
- Omega OTR - Extruder Builder
- Combi OTR:
Peeler/Buffer/Groover + Extruder Builder

MACHINES WITH EXPANDABLE CHUCKS

available in the versions 49" - 51" - 63"

- Eagle Mammuth - Peeler/Buffer/Groover
- Eagle Mammuth - Peeler/Buffer
- Omega Mammuth - Extruder Builder
